

**Postdoctoral
Fellowships –
2025 Call**

**Consultations for
Applicants -
Application Form**

RCL

Research Council of Lithuania

2025

Requirements for applicants

- The application is submitted by the implementing institution together with the research fellow.
- **Implementing institution** - Lithuanian science and study institution included in the Register of Education and Science Institutions, university hospitals. The host institution must be different from the one where the research fellow prepared the doctoral thesis.
- **Fellowship supervisor** - Scientist or artist working in the implementing institution, who during the implementation of the project leads the scientific (art) research work carried out by the research fellow. The postdoctoral project does not have to be supervised by the research fellow's doctoral dissertation supervisor.
- **Research fellow** - researcher who has a science (arts) doctorate degree awarded by a Lithuanian or foreign science and studies institution, and for whom no more than 7 years have passed from the date of the science (arts) doctoral dissertation defense to the date of the application submission deadline specified in the call for proposals (*this period is extended 18 months (in the case of maternal pregnancy and childbirth, parental leave) for each child born before or after the date of obtaining the doctoral degree, upon presentation of the birth certificates of the child(s), or during a specific actual period, upon presentation of documents justifying pregnancy and childbirth, paternity leave or leave period(s) to look after the child(s))*) and carrying out the scientific (artistic) research work provided for in the project.
- A person may be indicated as a research supervisor or research fellow in only one application.

Requirements for applicants

- During the implementation of the project, the research fellow must be employed in the position of researcher and/or researcher (in the case of the arts) and he/she must be assigned a salary coefficient according to the coefficient interval limits specified in Article 72¹, Part 5, Clause 5 of the Law of the Republic of Lithuania on Science and Studies. The total working time of the research fellow during the implementation of the project would be 40 hours per week (1 full-time position), including annual leave granted to research staff of research and study institutions.
- During the implementation of the project, the research fellow must go for an internship to a foreign science and study institution or research center, laboratory, company, institution, library, archive, expedition, etc. The minimum duration of the trip is 30 days. The departure period can be divided into parts, one of which must be at least 15 days.
- Neither research supervisor nor research fellow are subject to any other restrictions than those specified in the call conditions.

Budget

About 8 million euros are allocated for projects under this call

Filling out the application

Applications should be submitted in English until 2025-06-06,
16:00 at <https://junkis.lmt.lt>

Applicants whose projects are recognized as funded must submit applications in Lithuanian (without attachments).

It does not matter who applies to „Junkis“ (research supervisor or research fellow). You will also have to submit the final report using the same account you submitted the application. The application can be assigned to another account only upon written request of the institution implementing the project.

Filling out the application

Important!

When filling out the application, do not leave unsaved information for more than 30 minutes.

Jogaila Mackevičius

Esu patvirtinęs, kad susipažinau ir sutinku su Lietuvos mokslo tarybos Asmens duomenų apsaugos politika ir Asmens duomenų tvarkymo aprašu.

3. PROJECT JUSTIFICATION AND DESCRIPTION OF ACTIVITIES

3.2. Project objectives, methods, work schedule, risk management

Identify project objectives (one-sentence project objectives are recommended), research methods, the expected work plan – a calendar work schedule of the project; a brief description of the equipment and other resources required for the implementation of the project, which will be procured with project funds; forecast possible risks and provide their management plan – alternative ways for solving the project objectives needed to implement the project in a timely and proper manner. Indicate the place and the duration of the planned internship in a foreign research and study institution or research centre, laboratory, company, institution, library, archive, expedition, etc. (no more than 6,000 characters)

aaa

IRAŠYTI

Filling out the application

3. PROJECT JUSTIFICATION AND DESCRIPTION OF ACTIVITIES

3.3. Project outcomes and their dissemination

Indicate what scientific results of the project (such as, for example, method, methodology, interpretation, synthesis, concept, theory, model, technology, data sets) are expected, and how they will be measured. Project results are not identical to their presentation forms, such as articles, reports or patents.

A brief description of the stakeholders, i.e. entities or groups thereof that may be interested in the results obtained during the project.

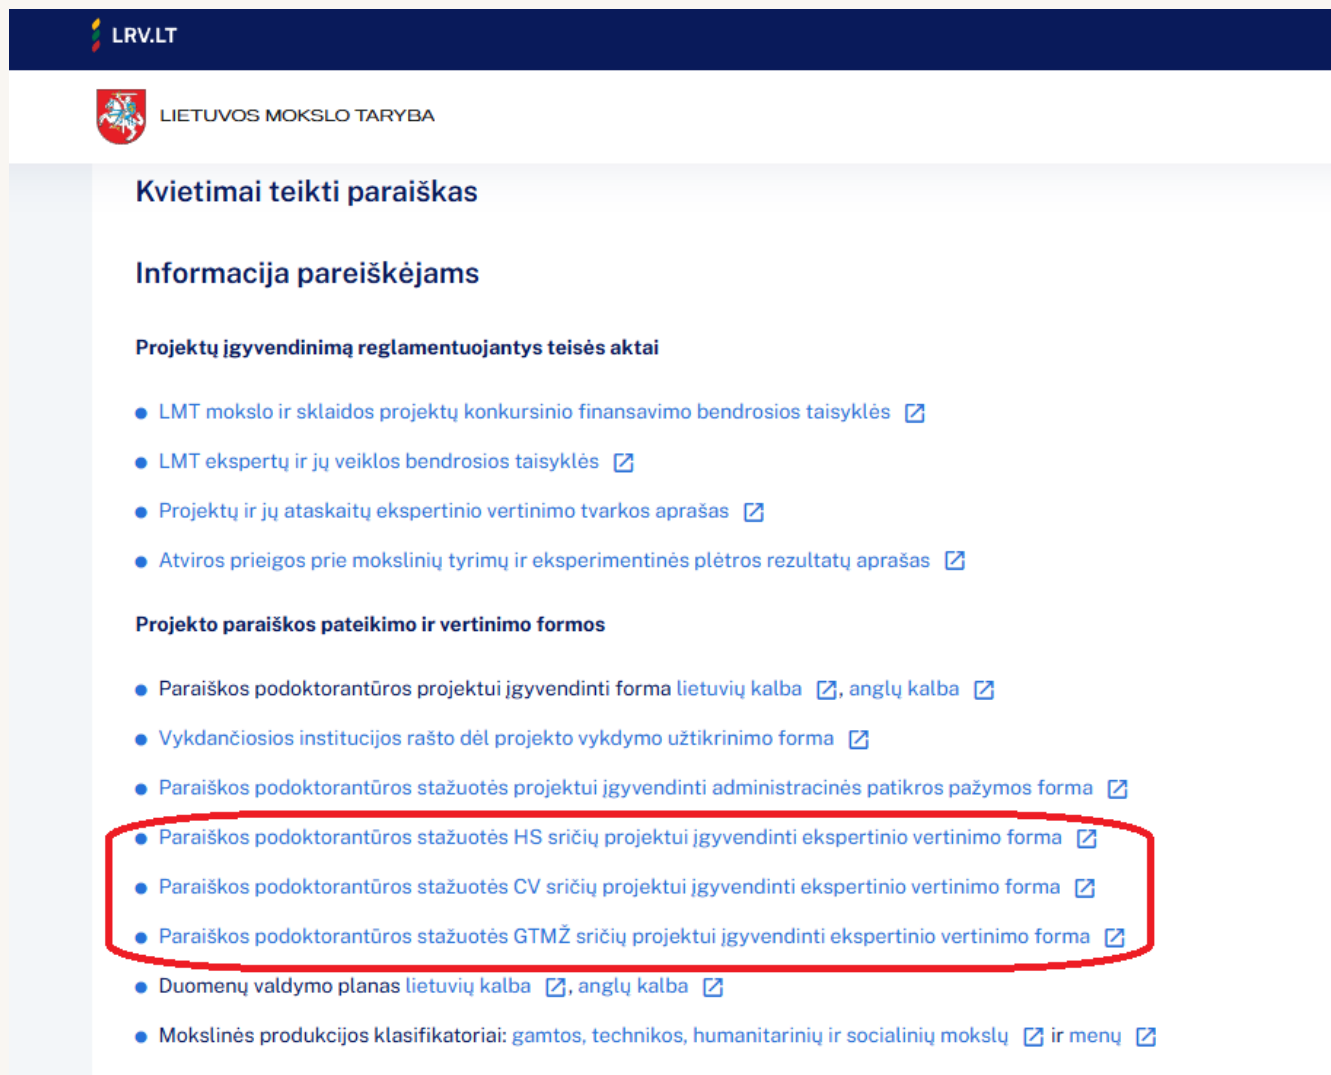

Indicate in what form the results will be presented to the LMT (e.g., monograph, study, prepared scientific papers, reports: short, concentrated analysis with recommendations, more detailed analysis with data and evidence, policy guidelines for specific problems, thematic reports, thematic reports to solve certain problems; digital documents, documents of organized seminars and/or conferences, etc.); if it is a one-off publication (for example, monograph, study) – provide a preliminary title, language of publication and form (printed, electronic); if it is an article in a peer-reviewed journal, indicate which project task(s) the results of which are planned to be published in the article, as well as the possible focus category of the journal(s); if it is a presentation at a conference or other scientific event, justify the event's compliance with the project's goal and its level (national, international), as well as the event organizer; if it is an event organized by the project implementers, indicate its preliminary topic, target groups, and speakers' competence). Only those results that contain a reference to the funding source - the Research Council of Lithuania - are considered eligible. (no more than 4,000 characters)

3. PROJECT JUSTIFICATION AND DESCRIPTION OF ACTIVITIES

3.4. Information on the data management plan ?

Identify if the project implementation will require the accumulation of data

-

*If YES, the essential provisions of the data management plan shall be provided as a **separate annex** to the application, in the form of a table in accordance with the 'Guidance on the outline of a data management plan (DMP) for science and dissemination projects' available on the Council's website, thereby describing what will be done during and after the project in order to ensure that the data is stored in a safe and reliable way, how and under which conditions the data will be made available for reuse, when and how it will be made accessible to other users*

IRAŠYTI

The data management plan form can be found here

<https://lmt.lrv.lt/lt/veiklos-srityys/mokslo-finansavimas/karjeros-mobilumo-sklaidai-skatinimo-priemones/podoktoranturos-stazuotes/>

More details about the data and requirements for the data management plan and open access to data are specified in the Description of the Procedure for Open Access to the Results of Scientific Research and Experimental Development, approved by Order No. V-385 of the Chairman of the Council of 30 August 2024 (<https://www.e-tar.lt/portal/lt/legalAct/dceeeb10e05711e59cc8b27b54efaf6e>)

Filling out the application

3. PROJECT JUSTIFICATION AND DESCRIPTION OF ACTIVITIES

3.5. Ethical issues related to project activities

Please select one answer to each question

1. Is the intended research related to human embryonic (embryonic stem cell or tissue) research?	NO	▼
2. Is the intended research related to human cell or tissue (other than embryonic stem cell or tissue), or human genetics research?	NO	▼
3. Is the intended research related to animal testing or the use of animals for research?	NO	▼
4. Does the intended research plan human research using clinical trials or other intervention methods (e.g. sampling, monitoring (recording) of physiological functions, social experiments, psychological interventions)?	NO	▼
5. Is the intended research related to tracking and observing humans under natural, non-experimental conditions when individuals are not informed about the research being performed?	YES	▼
6. Will the intended research address socially vulnerable people (e.g. minors, prisoners, those with a physical or mental illness, victims of abuse)?	NO	▼
7. Will the intended research address sensitive topics that may cause psychological harm (e.g., psychological trauma, painful emotional reactions, memories of the research participant)?	NO	▼
8. Will the intended research collect and store confidential personal data (e.g. related to ethnic origin, religious, philosophical, political and other beliefs, health status), the disclosure of which could damage the reputation of the participants, their relatives or other people?	NO	▼
9. Is the intended research related to aspects that you consider to be ethically important other than those mentioned above? (If YES, name and explain them below)	NO	▼

If any question is answered with YES, it is necessary to explain every single aspect of the research related to an ethical issue and ways to solve this issue (the provision that it is planned to address institutional or professional ethics committee will not be considered sufficient); indicate whether the authorised institutions, permits, informed consents or other documents related to the ethics of research are needed during the implementation of the project (please attach the copies of such permits and consents in the section ANNEXES or explain how and when they will be obtained; if they are not issued for free, resources for their acquisition may be planned in project costs estimate) (no more than 4,000 characters)
