Vasaros mokslinės praktikos temos aprašymas

Aprašoma tema, jos aktualumas, atskleidžiama mokslinė problema, siejami tikslai, pagrindžiami būsimo tyrimo metodai, prietaisų bei kitos tyrimų infrastruktūros reikalingumas ir galimybė studentui pasinaudoti jais praktikos metu, kartu nurodomi siejami aiškūs ir realūs rezultatai (atsižvelgiant į tyrimui skirtą laiką), aprašant, kaip jie bus pamatuojami. Nurodoma, kokius MTEPI įgūdžius įgis studentas, atlikęs mokslinę praktiką (ne daugiau kaip 8000 spaudos ženklų).

Tema ir jos aktualumas

Geopolitinė strateginė korupcija yra palyginti neseniai suformuluota koncepcija, paprastai reiškianti valdžios vykdomą korupciją tarptautiniu lygmeniu, siekiant įgyvendinti savo geopolitinius tikslus (Kerusauskaitė ir Peiffer, 2025; Pozsgai-Alvarez ir Huss, 2025). Tokie geopolitiniai tikslai dažnai apima demokratijos silpninimą ir pasitikėjimo valdžios institucijomis mažinimą konkrečioje valstybėje. Šiems tikslams realizuoti reikalingi ištekliai nukreipiami per sudėtingą įmonių, fizinių asmenų ir nevyriausybinių organizacijų tinklą visame pasaulyje, įskaitant jurisdikcijas, kurios prisidengdamos konfidencialumu nesidalina svarbiais duomenimis (Kerusauskaitė ir Peiffer, 2025).

Description of the summer internship research topic

Please describe the topic, its relevance, identify the scientific problem, the objectives to be achieved, justify the planned research methods, the necessity and availability of instruments and other research infrastructure for the period of the internship, describe the results to be achieved, ensuring that the results themselves are clear and realistic, taking into account the time available for the research. Specify how these results will be measured. Please also indicate the R&D&I skills that the student will acquire as a result of the internship (no more than 8000 characters).

General information about the selected topic and the summer internships

To apply for a selected topic, you need to click “Main Information” and “Submit request”

Submit request for institution representative

Back

If you want to submit a request, go back to the „Main information" panel and click on „Submit request"

!!! IMPORTANT

The student will first submit the application to the hosting institution of the internship supervisor (institution representative), and only the institution representative will forward the application to the Research Council of Lithuania (LMT). Therefore, we recommend submitting applications by April 22 or as early as possible.
