

We invite you to join a unique series of free webinars organized by Elsevier for researchers, PhD candidates, editors and students.

The webinar series has been designed to provide comprehensive support for authors at every stage of the research and publishing process. Throughout the series, participants will explore practical tools and proven methodologies that can help them more effectively collect data, analyze research findings, prepare scholarly manuscripts, and publish their work in reputable journals.

Each webinar will focus on a different aspect of an author's work, enabling participants to gain practical knowledge and skills that can enhance the effectiveness of their research activities and contribute to greater publishing success.

This webinar series include:

1. 06.10.2026 17:00 EEST **Unlock the Full Potential of Scopus with APIs** (English session); Register [here](#)
2. 08.10.2026 10:00 EEST **Making Your Research's SDG Contribution Clear and Discoverable – this session is hosted by Riga Technical University** (English session); Register [here](#)
3. 13.11.2026 11:00 EEST **Elsevier Author Workshop - How to Feel Confident on the Publishing Journey** (English session); Register [here](#)
4. 18.11.2026 11:30 EEST **Editors Session with Elsevier** (English session); Register [here](#)
5. 24.11.2026 10:30 CEST **How to find the right journal; strategies and tools that can help authors** (English session); Register [here](#)

In addition, we encourage you to join sessions dedicated to our solutions that support the research process and provide access to high-quality content, tools, and publications:

1. 30.09.2026 11:00 EEST **What's new in Embase, meet Embase AI** (English session); Register [here](#)
2. 15.10.2026 09:00 EEST **Intermediate to advanced LeapSpace™ uses – deep research, compare experiments, trust card and claims radar use** (English session); Register [here](#)
3. 20.10.2026 12:00 EEST **Knovel for research and engineering projects: trusted engineering data at your fingertips** (English session); Register [here](#)
4. 27.10.2026 11:00 EEST **What's new in Reaxys, Reaxys AI, Conditions Navigator and more** (English session); Register [here](#)

We encourage you to register for the webinars of your choice, as recordings of all sessions will be shared with everyone who registers.
